## INTRODUCTION

**The Universal Periodic Review (UPR)** was created by the United Nations General Assembly in 2006. It is a unique peer review mechanism that reviews the human rights situation of all states equally every four and a half years by other Member States during the sessions of the Government Working Group of the Human Rights Council in Geneva. All states, without exception, are actively involved in reviewing the human rights situation and in making recommendations.

The purpose of this mechanism is to provide support to all UN Member States in better assessing their human rights needs as they develop, in a timely and periodic manner. The UPR reviews the implementation of human rights obligations as set out in the UN Charter; the Universal Declaration of Human Rights; human rights treaties ratified by the State concerned and other and voluntary commitments and obligations of the Member States. Based on this review, the UPR provides support to Member States to strengthen national human rights protection through recommendations.

The Review is based on three sources:

- 1) **Report prepared by the government of each state;**
- 2) **Data from reports of independent experts and human rights working groups, such as special mechanisms, treaty bodies, as well as other organisations within the UN network;**
- 3) **Data submitted by other stakeholders such as independent human rights institutions, regional organisations and civil society organisations.**

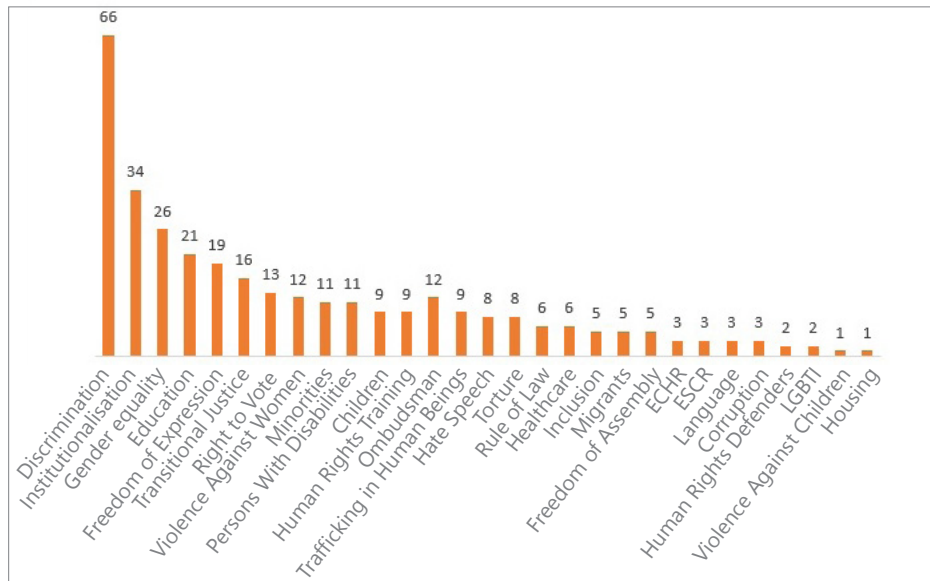

Bosnia and Herzegovina's report for the Third Cycle of the Universal Periodic Review on the State of Human Rights Situation, prepared by a number of BiH institutions coordinated by the BiH Ministry of Human Rights and Refugees was adopted on 9 October 2019 by the Council of Ministers of Bosnia and Herzegovina.

In December 2018, the Sarajevo Open Centre gathered civil society organisations with expertise in various fields of human rights and formed the Civil Society Initiative for UPR. This initiative brought together the following organisations: Sarajevo Open Centre, BH Journalists, Civil Rights Defenders, CURE Foundation, Transparency International in BiH, Association Zemlja djece u BiH, CA Why Not, Civil Society Promotion Centre, Association Vaša prava BiH, TRIAL International, My Right - Empowers People with Disabilities, and CA for Promotion of Roma Education "Otaharin". The work of the Initiative resulted in a single Shadow Report for the 3<sup>rd</sup> Universal Periodic Review on the State of

Human Rights in Bosnia and Herzegovina<sup>1</sup>, which is contained in the Summary of Stakeholders’ submissions on Bosnia and Herzegovina<sup>2</sup>.

During its thirty-fourth session, which was held from 4 to 15 November 2019, the Working Group on the Universal Periodic Review considered the review of Bosnia and Herzegovina on 13 November 2019. The delegation of Bosnia and Herzegovina was led by Ms. Semiha Borovac, Minister of Human Rights and Refugees of Bosnia and Herzegovina, and the Working Group adopted the report on Bosnia and Herzegovina at its 18<sup>th</sup> meeting, held on 15 November 2019<sup>3</sup>. A total of 207 recommendations relating to a number of human rights aspects were issued for Bosnia and Herzegovina.

In the process of drafting this document, the recommendations were categorised according to the aspects of human rights to which these recommendations refer. This categorisation made it possible to determine in which areas the greatest number of recommendations were made, as seen in the diagram below. Although many rights are interconnected, this approach has made it easier to identify key areas of human rights that have been recognised for BiH by other Member States. The scheme indicates that the largest number of recommendations were made in the fields of discrimination, institutionalisation, gender equality, education and so on.

3 Report of the Working Group on the Universal Periodic Review – Bosnia and Herzegovina, Human Rights Council Working Group on the Universal Periodic Review Thirty-fourth session Geneva, 4-15 November 2019, available at: <http://www.mhrr.gov.ba/PDF/LjudskaPrava/Zakljucna%20zapazanja%20na%20Treci%20ciklus%20UIPR-a.pdf>

The UPR process is not specified as occurring only between the two reporting and review processes during the Working Group session. That is why the UN Secretary-General<sup>4</sup> has recommended that the success of states in their efforts to promote and protect human rights, with the support of the United Nations, will undoubtedly depend on the existence of national reporting and monitoring mechanisms to implement and report on recommendations. Efforts and outcomes will be achieved in close cooperation and consultation with national stakeholders. Such mechanisms will also facilitate the task of the state to develop comprehensive national human rights action plans and/or plans for implementation of recommendations.

In the absence of a mechanism to respond to these UN recommendations regarding the monitoring of the implementation of the recommendations, the Sarajevo Open Centre has started drafting a document to:

- **Allow priorities to be set in the implementation of the recommendations;**
- **Establish the preconditions for the implementation of the recommendations by the competent institutions;**
- **Promote UPR recommendations and advocate prioritisation of implementation of recommendations by civil society organisations and international organisations in BiH.**

It is thus presumed that this document acts as a **Universal Periodic Review Recommendations Monitoring Instrument for Civil Society Organisations in BiH**. The use of this document does not hinder further efforts and advocacy of civil society organisations for government institutions to establish an effective mechanism for monitoring the progress of the UPR in line with the recommendations of the United Nations General Assembly.

Finally, this document provides a direct link to the European integration as a key foreign policy goal of BiH, which essentially identifies the topics covered by the UPR recommendations as priorities in the accession process. In that sense, a direct link has been made to the Commission Opinion on Bosnia and Herzegovina's application for membership of the European Union<sup>5</sup>.

<sup>5</sup> Communication from the Commission to the European Parliament and the Council, Commission Opinion on Bosnia and Herzegovina's application for membership of the European Union, Brussels, 29 May 2019 COM (2019) 261 final, available at: <http://europa.ba/wp-content/uploads/2019/06/Misljenje-Komisije-o-zahtjevu-Bosne-i-Hercegovina-za-%C4%8Dlanstvo-u-Evropskoj-uniji.pdf>

During the process, consultations were held with relevant institutions at various levels of government in order to validate the proposals of human rights experts. These consultations were conducted under epidemiological measures caused by the COVID19 pandemic – an objective constraint for the overall engagement with a number of institutions. Nevertheless, using online platforms, combined with physical attendance at the workshops, consultations were successfully conducted in three cities in Bosnia and Herzegovina. What was recognised during the workshops was the need for consultations to be conducted on a regular basis in order to regularly update this instrument and to ensure the transfer of knowledge between experts from the governmental and non-governmental sectors. In this regard, it is proposed to create innovative tools such as online platforms for monitoring UPR recommendations.

**CA for Promotion of Roma Education “Otaharin”** from Bijeljina was founded in 2005. Since its founding, the Association has been dealing with the issue of the educational needs of Roma men and women and facilitating access to education for the Roma population. Through a decade and a half of work, in addition to education, we have realised that for the social inclusion of Roma men and women it is necessary to develop various programs that work complementarily to achieve the goal of integrative/comprehensive social inclusion of Roma men and women. Currently, the organisation operates in the following program areas: education; youth and volunteerism; prevention of trafficking in human beings; economic and psychosocial empowerment of women; social entrepreneurship and work with preschool and school age children.
